

COASTWATCH REPORT

Mile #

Date

Time

 / /

Enter the date and time of this observation.
If you don't know the exact time, enter "All day".

STEP 1 OF 5 — CONDITIONS

Temperature

 °F

Cloud Cover

- Sunny
- Foggy
- Cloudy
- Rain
- Partly Cloudy

Wind Velocity

- Calm/Light
- Moderate
- Strong
- Storm

Wind Direction

from the ...

Tide Level

- Low
- Medium
- High

CHECK THE TIDES: tide-forecast.com/regions/Oregon tidesandcurrents.noaa.gov

STEP 2 OF 5 — HUMAN ACTIVITY

Humans/Pets

Count only those actually on the beach, rocks, or in the water.

of People

of Dogs

Activity Counts

Walking / Running

Playing in Surf

Playing in Sand

Sitting

Photography

Rockhunting

Tidepooling

Surfing

Windsurfing

Kayaking

Fishing

Sunbathing

Other Activities

Concerns

- Fire
- Litter
- Climbing Bluffs/Seastacks
- People/Dogs in Closure Areas
- Driftwood Removal
- Kelp/Algae Collection
- Shellfish Collection

Apparent Violations

Disturbances

- Shorebirds moving in response to humans/dogs
- Disturbance of nesting seabirds
- Disturbance/harassment of marine mammals

If you observe marine mammal harassment, call the Marine Mammal emergency number 1-800-452-7888 (Oregon State Police). Consider filing a Stranding report with the Oregon Marine Mammal Stranding Network (OMMSN) located under the CW dropdown menu on the OS homepage, after you submit your CW Mile Report.

Vehicles

** Off-Highway Vehicles (OHVs) include four-wheelers, three-wheelers, motorcycles, and dune buggies that are not approved for highway use.*

	Cars / Trucks	ATVs / OHVs*	RVs / Buses
In parking areas, access sites	<input type="text"/>	<input type="text"/>	<input type="text"/>
On beach within allowed areas	<input type="text"/>	<input type="text"/>	
On beach outside allowed areas	<input type="text"/>	<input type="text"/>	

Comments on Human Activities

STEP 3 OF 5 — SHORELINE WILDLIFE

Notable (Live) Wildlife

Mammals, Birds, Invertebrates, Seaweed

Please explain anything biological you see that you consider notable. This might be unusual numbers, rare species, missing species, etc. Please take photos!

Beached Birds

To report unusual/rare species, more than 10 birds of the same species on your mile, oiled birds, leg bands or other markers on a bird carcass, please notify COASST: coasst.org

Total Dead Birds

Signs of Oiling

Entanglement

Leg bands, species names, counts

Stranded Marine Mammals

Harbor seal mothers sometimes leave their pup on the beach while searching for food. Please don't report one of these pups as stranded, unless it's obviously injured or threatened by humans or dogs. Other marine mammals often "haul out" on rocks, and should be reported as stranded only if dead or injured. For more information, please refer to the OMMSN located under the CW dropdown menu on the OS homepage.

Stranded Mammals Total

Stranded Mammals Description (species/name, condition, and location)

Dead Fish or Invertebrates

Unusual Concentration

Unusual Fish Description (Species/Names)

Driftline Content

Small Rocks

Wood Pieces

Animal Casings (e.g. crab, shrimp molt)

Kelp or Algae

Styrofoam

Land-based debris (picnics, etc.)

Shells

Plastic Pellets

Ocean-based debris (from fishing boats, ship trash, etc.)

Other:

STEP 4 OF 5 — PHYSICAL CHANGES, GENERAL COMMENTS

New Development

Steps down bluff

Bluff development

Drainage Pipes

Other Development

Man-made Beach and Shoreline Modifications

- Dune modifications
- New plantings of European beachgrass
- Stream Modifications
- Sand Removal
- New riprap or shoreline protection structures

Comments on Modifications

Natural Changes

- Landslides/major boulder falls
- Major cracks appearing in bluffs
- Newly exposed roots/trees falling
- Visible retreat of solid bluff
- Evidence of wave overtopping
- Erosion of vegetated foredune

Other Natural Changes

Actions and Comments

Please add comments and observations of interest, curiosity, or concern. Mention any actions you've taken, or people you've contacted to report problems. Visit the Coastwatcher resources page under the CW dropdown menu on the Oregon Shores homepage.

Summary

Provide a quick overview of what has occurred on your walk. This rundown of the most important observations noted elsewhere in this report must be filled out in the online fillable form for your report to show up in the Tour of the Miles. Nothing should be mentioned here not found in the body of the report.
